Ø<β⁻ EXECUTIVE SUMMARY

Performance Overview

This comprehensive report presents our ESG performance metrics for the fiscal year 2026.

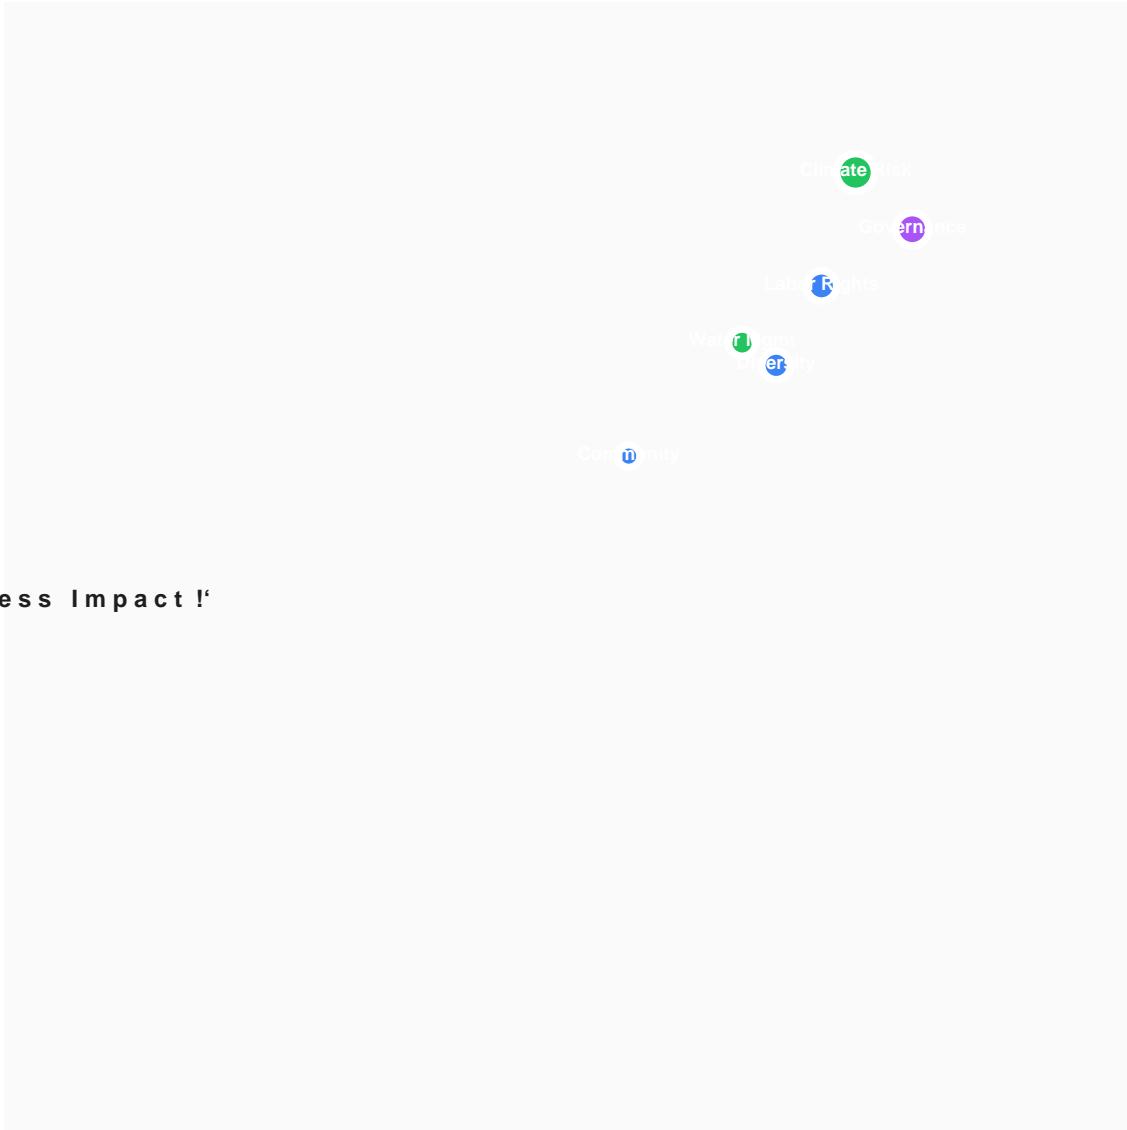

We have systematically tracked and analyzed 12 critical performance indicators across all ESG dimensions.

Key Achievements:

- Comprehensive data collection across all ESG categories
- Systematic tracking of 100+ performance metrics
- Full alignment with GRI, SASB, TCFD, and ISSB standards
- Continuous improvement in sustainability practices

MATERIALITY ASSESSMENT

This assessment identifies ESG issues most relevant to our business and stakeholders.

Key ESG Topics by Impact Level:

- Ø<ß Environmental Topics
- Ø=Üe Social Topics
- &-þ Governance Topics

Ø<β ENVIRONMENTAL PERFORMANCE

Total Metrics Tracked: 4

Average Value: 63780.75

Data Points: 4

Latest Period: 2026

Key Metrics:

- CO2 Emissions
- Renewable Energy
- Water Usage
- Waste Reduction

Ø=Üe SOCIAL PERFORMANCE

Total Metrics Tracked: 4

Average Value: 2143.80

Data Points: 4

Latest Period: 2026

Key Metrics:

- Employee Diversity
- Workforce Safety
- Community Investment
- Employee Training

&-p GOVERNANCE PERFORMANCE

Total Metrics Tracked: 4

Average Value: 79.50

Data Points: 4

Latest Period: 2026

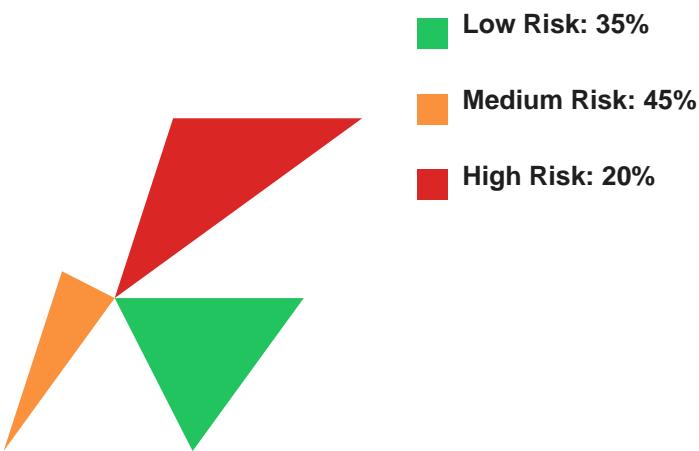

Key Metrics:

- Board Diversity
- Executive Compensation
- Ethics Training
- Risk Management

RISK MANAGEMENT

Our comprehensive risk management framework addresses ESG-related risks:

Risk Distribution

Risk Mitigation Strategies:

Climate Change: Transition to renewable energy, set carbon reduction targets

Supply Chain: Regular audits, supplier engagement, due diligence processes

Labor Practices: Fair wage policies, safe working conditions, regular training

Data Security: Robust cybersecurity measures, employee training programs

Regulatory:

Continuous monitoring, proactive compliance, legal partnerships

INDEPENDENT ASSURANCE STATEMENT

EY - Ernst & Young

Independent Verification and Assurance Provider

Scope of Assurance:

We have undertaken a limited assurance engagement to review the ESG performance data and claims made in this Sustainability Report.

Methodology:

- Data testing of reported metrics against source documentation
- Site visits and interviews with key personnel
- Review of data collection and consolidation processes
- Assessment of adherence to GRI, SASB, and TCFD standards

Conclusions:

Based on our work, nothing has come to our attention to suggest that the reported ESG metrics are not fairly presented in accordance with the applicable reporting framework.
